To whom it may concern:

This letter is to certify that Mr. Hesam Dehghani cooperated as a collaborative writer and director in creating CollabFeature's second feature length film (working title "Train Station").

As the head producer of CollabFeature and "Train Station", I had the honor and pleasure of working with Mr. Dehghani. He delivered a high quality 3-minute segment of the film within the appropriate scheduled date. Furthermore, he has stood out as one of the most reliable and active team members of the entire project. He has met all of the challenges of participating in an international collaboration and exceeded our expectations every step of the way.

CollabFeature is a group of independent filmmakers from all over the world who have come together to create multi-director feature films. Each filmmaker writes and directs a segment of the bigger story in his or her own country. The project has been in existence since 2008 and is facilitated by my company Lights Go Down, LLC. In May of 2012, we premiered our first collaborative feature film in theaters in 13 countries. We plan to release "Train Station" in early 2013. You can visit www.CollabFeature.com for trailers, press and more information.

Please contact me if you have any more questions.

Sincerely,

Marty Shea
Producer "Train Station"
